

Two-way Street Conversion

This project will upgrade utilities and convert both Redmond Way and Cleveland Street to two-way traffic, creating better access for residents and businesses.

- Location:** Redmond Way and Cleveland St from 160th Ave NE to Avondale Way
- Project Phase:** Construction starting soon
- Estimated Timeline:** Design 2013-2015, Construction late spring 2016 through end of 2017
- Contact:** Jill Smith, Downtown Outreach, 425-556-2448 • Lisa Singer, Project Manager, 425-556-2723

The conversion will make Downtown easier to navigate and more connected, whether you are driving, walking, biking, or taking transit. Cleveland Street is designated as Redmond's signature "main street" while Redmond Way will carry the majority of traffic as the main arterial through Downtown. This project is the completion of the planned transportation grid in Downtown, which included the sequencing of six major roadway and utility infrastructure projects over the past six years.

The following work will occur at the eleven intersections:

- Replacing old utilities (water, storm)
- New traffic signals, lighting, and sidewalks
- Undergrounding of overhead power and communications
- Paving and landscaping
- New plazas near Anderson Park

Work between the intersections includes:

- Reconfiguring lanes
- Updating street signs
- Remaining sidewalk and parking improvements between intersections will be constructed later as private development occurs

Maintaining access to businesses and adjacent properties will be a priority during the project.

More details at redmond.gov/TwoWayConversion

Project Timeline:

Project Costs:

Total:	\$27.0 million
City General & Utility Funds:	\$ 2.8 million
Other Funding:	\$24.2 million

Recent Activities:

- Council Staff Report January 5, 2016.
- Project federal funding \$5 million authorized.
- Downtown Projects Open House, held March 10, 2016: Renderings and information about each downtown project were shared with attendees (60 -70 Downtown business owners and residents). Information and resources were offered to assist with concerns regarding traffic, parking, and access throughout downtown.
- Continuing to coordinate with adjacent developers.

What's Happening Next:

- Communications on the project schedule and impacts are ramping up as construction nears. See below for how to sign up for project updates.
- Construction is anticipated to begin by summer 2016.

Neighborhood Impacts:

- Construction will mostly occur during the daytime.
- Traffic impacts from construction activities and the temporary closure of the south end of 168th Ave NE during construction. Daytime lane closures and occasional night work is anticipated.
- Noise from construction activities.
